

Probability distribution of orientation of spin vector of (375) Ursula (ecliptic coordinates)

(occultation : 2003/10/19 , 1982/11/15)

(lightcurve : 2003 , 1991 , 1982)

lambda = $258^\circ \pm 29^\circ$

beta = $+6^\circ \pm 28^\circ$
